FOR IMMEDIATE RELEASE

AmeriChoice FCU Launches New Online Banking through WRG

Wescom Resources Group successfully converts a new client to its Symmetry eBanking software

Pasadena, Calif. – May 10, 2017 – [Wescom Resources Group](#) (WRG), a provider of software and technology service solutions for credit unions, today announced that AmeriChoice Federal Credit Union launched the CUSO's Symmetry eBanking™ software solution for its desktop online channel. AmeriChoice FCU is a full-service, member-owned, not-for profit financial institution based in Mechanicsburg, Pennsylvania with \$175 million in assets and over 15,000 members serving Cumberland, Dauphin, and Perry counties.

After searching for a new platform to replace their existing online banking system, AmeriChoice FCU selected Wescom Resources Group. The project to implement WRG's ebanking software commenced in September 2016, culminating in the new online banking platform's deployment to members in February 2017. WRG also installed a new personal finance management system, powered by Geezeo and branded as FOCUS by the credit union, for users to moderate budgets, cash flow, and goals.

"We're very happy with the new platform," said President and CEO Anna May Nauss, "The conversion process from last summer to launch went well. The transition was very smooth." Roger Lange, the Chief Information Officer at AmeriChoice FCU who worked with WRG on the design and development of a new architecture for the credit union's internet channels, added, "What do members like about the new system? Everything. Member experience feedback on the intuitive member interface has been great. We continue to receive very positive comments. And WRG's online banking software integrates well with the Symitar database and FOCUS. It's flexible to administer."

About Wescom Resources Group

Backed by Wescom Credit Union, one of the nation's largest credit unions, with nearly \$3.6 billion in assets and serving 200,000 members, Wescom Resources Group provides credit unions with advanced technology solutions that increase their competitive edge.
