

## **Trellance Partners with Wescom Resources Group to Deliver a Full, Managed IT Stack to Credit Unions**

***The partnership will allow both companies to better meet the needs of the credit unions they serve***

**Tampa, FL – August 6, 2024** – Trellance, a leading technology partner providing innovative analytics, cloud and talent solutions to credit unions, has partnered with Wescom Resources Group (WRG) in order to provide credit unions with core processing and automation solutions.

WRG, a wholly owned CUSO of Wescom Central Credit Union, provides data management and processing services, including managed core solutions, to credit unions and other financial institutions. By partnering with Trellance, who provides managed IT services, the partnership will be able to better meet the needs of credit unions who are looking to augment their technology management resources.

“By combining WRG and Trellance’s offerings, credit unions have access to a full IT Stack offering,” said Shane Butcher, COO of Cloud at Trellance. “We’re able to offer WRG clients our Analytics and Cloud offerings to complement their core processing. Then we get to turnaround and go to our clients and say we have a bundled offering to support their core. It’s a win-win.”

“Partnering with Trellance makes sense for WRG and its clients,” said Dave Cerwinski, President at WRG. “It allows us to provide a broader array of capabilities that are, in many cases, closely aligned with the services that WRG’s clients rely on us for.”

Bundled products are now available through both Trellance and WRG. Speak with a Trellance or WRG representative for more information on how to secure a fully managed IT stack for your credit union.

### **About Wescom Resources Group**

Backed by Wescom Credit Union, a credit union with over \$6.3 billion in assets and over 245,000 members, Wescom Resources Group provides credit unions with technology solutions that simplify the management of their data.
